Subject: Last night, November 20, 2016, the Water Protectors were under attack by the Morton County
Sheriff's Dept., National Guard and whatever law enforcement group they have paid to join them.
[removed.txt](#)

Good morning Your Excellency's,

Last night the Water Protectors were under attack by the Morton County Sheriff's Dept.,
National Guard and whatever law enforcement group they have paid to join them. They have
asked for a "call out to contact the President....". Again they are being shot at with rubber
bullets, tear gas, pepper spray, compression grenades and water cannons.

There is also a callout for Medical Supplies to help the injured.

I am sure you will hear more reports. It was also noted that CNN is also reporting one sided
reports with Morton County today.
